SUPERINTENDENT'S REPORT

To the School Directors of Pittsford:

The past year has been a successful year in the Pittsford Schools, both pupils and teachers showing an interest in their work. No startling developments have taken place in the school (things of permanence and value do not come about in this way) but the year has been a year of good work and good progress in general.

During the year the Furnace School has been standardized, and the town now has two standard schools. A year ago last fall the East Pittsford School was repaired and painted, and is in fairly good condition, but the Douglass, Goodnough and Hudson Schools are in need of repairs and improvements. It would be a good plan to improve one school a year, if the citizens of the town should approve of this policy; and in a comparatively short time the town would have rural school buildings in good condition and requiring a low outlay for upkeep for years to come. The Douglass School needs general repairs, but the Goodnough and Hudson Schools need attention more than any other schools in town, partly because of the large number of children attending each school. While I am fully aware of the heavy burden that the citizens of Pittsford are bearing in the maintenance of their schools, I would respectfully urge upon you and them a careful oversight of their school buildings, for such buildings well repay a reasonable outlay at the proper time, whereas neglect in this matter means ultimately a greater expense to the town.

At the opening of the school year in September we found Grades 5 and 6 in the Lothrop School so large that in justice to the pupils, it was thought best to give Miss Phalen an assistant teacher for the forenoon. This plan is working out well, and on account of the large number of pupils that will enter the 5th grade next year I would advise that the same plan be followed.

We are making a special effort to adapt the work of the rural schools to that of the Lothrop School in such a way that pupils passing out of the 6th grade can enter the Junior High

School on terms of equality with those from the 6th grade of the Lothrop School. In order to do this it is necessary for superintendent and teachers to plan the work wisely, and for pupils and parents to co-operate in all possible ways to make the work in the rural schools as good as possible.

The rural school has some strong points in its favor, but it would seem that on the whole the graded school pupils have an advantage over those in the rural schools. This is due to a number of causes, and there is not occasion or space in this report to go into detail in this matter. As a practical problem, we must do all we can for the boys and girls in the rural schools. Your rural teachers are an unusually faithful and capable body of teachers, and you have been fortunate in retaining for several years capable teachers in the same schools. This means a more definite and consistent system of teaching and promotion of pupils. As a more satisfactory basis of promotion to the Junior High School, it has been decided to give tests for admission from this time on. If a pupil is not properly prepared to do Junior High School work, it is much better for him to spend another year in the rural school; but we must all try to realize the importance of good work in every year of the rural school, in order that the pupil passing in this school from the 5th grade to the 6th, shall have been well taught in every grade. If we are careful in this respect, there will be few pupils who will not be able to do the 6th grade work successfully in the rural schools, and pass reasonable tests for admission to the Junior High School.

In conclusion, I wish to thank the Directors and the citizens of Pittsford for their interest and co-operation. The people of Pittsford believe in education, and are ready to bear all necessary burdens without complaint. It is the duty of us all, particularly of those of us who are connected with the schools in any official way, to spend the people's money wisely and efficiently. Let us not slacken our efforts in behalf of the boys and girls of to-day who will be the citizens and taxpayers of tomorrow.

Respectfully,

ERNEST G. HAM,
Superintendent of Schools.

PRINCIPAL'S REPORT

To the School Directors of the Town of Pittsford:

My report for the year ending February 1, 1925 is hereby submitted for your consideration.

The past year has been a year of progress in the High School. The teachers have done faithful work, and the attendance and work of the pupils have been commendable. In June, the class of 1924 was graduated, twenty-nine pupils receiving their diplomas. This is the largest class in the history of the school, and a very large percentage of this number are continuing their education in Normal Schools and Colleges. In September, school reopened with three new members on the faculty. Miss Lucy Luechina, instructor in Latin; Miss Effie Smith, instructor in French; and Mr. Jerome Tennien, instructor in Agriculture. The only change in the program of study, is a new course in Business Practice, which is a preparation for the course in Book-keeping.

It has been our aim to meet the problems of the individual pupil who is not up to standard. To make this possible, two periods per week are being devoted to individual instruction in all classes. Although this practice is still new, good results are already noticeable.

A new system of Junior High School entrance goes into effect in June, 1925. All pupils who contemplate entering the Junior High School in September, 1925, are required to report to the Lothrop building in June, when they will be given oral and written examination. We hope to be able to determine the fitness of the pupil for Junior High School work, and classify the incoming pupils according to their individual needs. In this way, aid can be given where it is most needed, and a greater degree of efficient instruction reached.

I wish to thank the people of Pittsford for their kind cooperation in my work. Remember, as parents, you owe a duty of fair cooperation to the school, and to your children, and this duty must be fulfilled if your children are to receive the full benefit of a High School education.

Respectfully submitted,

JOHN W. URQUHART,

Pittsford, Vt., January 29, 1925.

Principal.

Total expenses for year	\$34,163 74
-------------------------	-------------

In closing our accounts this year we are sorry to see an overdraft, but several unforeseen things have happened to make, at least, part of it.

We have added transportation expenses from Sugar Hollow and the Goodnough District, also the additional expense of a half time teacher to assist Miss Phalen.

Then, too, the repairs on the Furnace School were more than was anticipated, but we should feel well repaid to have one more Standard school house in Pittsford. We received \$100.00 from the State for the repairs of said school.

We give below the actual cost of repairing

Chemical toilets	\$177 09
Labor	388 56
Lumber, paint and hardware	227 71
	<hr/>
	\$793 36
	100 00
	<hr/>
Actual cost to town	\$693 36

Respectfully submitted,

E. H. ALLEN,
T. E. ADAMS,
J. B. CANDON.

REPORT OF THE LIBRARIAN

For the year ending Dec. 1, 1924

During the year the Maclure library was open, for the public circulation of books, on 205 afternoons and 116 evenings, a total of 321 openings.

The total book circulation for the year was 14,460 of which 4,216, or 29%, were books from the children's room. The circulation of current magazines was 2,396, making a total circulation of 16,856 books and magazines.

The average daily circulation was 82.2. The number of books added to the library during the year was 272, of which 14 were bound magazines and 66 were gifts from 16 sources. The reading tables were supplied with 34 periodicals and 2 daily newspapers, of which 5 were gifts. Bills for the books purchased amounted to \$320.07, the magazine subscriptions for the year were \$91.85, and the rebinding of 118 volumes amounted to \$99.40

Received at the loan desk \$58.80 for fines and subscriptions, and \$57.07 for the rental of books at two cents a day.

The treasurer of the Association received from the town's appropriation of 2% on the grand list, \$326.65.

Orders drawn on the treasurer of the Association for all approved bills of the year amounted to \$2,492.22.

A printed catalogue of books added during the past year is now ready for distribution.

Respectfully submitted,

MARY RANDALL ALLEN,
Librarian.
